

Jean Ponce is a Research Director at Inria and a Visiting Researcher at the NYU Center for Data Science, on leave from Ecole Normale Supérieure (ENS) / PSL Research University, where he is a Professor, and served as Director of the Computer Science Department from 2011 to 2017.

Dr. Ponce graduated in Mathematics from ENS Cachan in 1982. He received his "Doctorat de Troisième cycle" (PhD degree) and his "Doctorat d'Etat" (Habilitation degree) in Computer Science in 1983 and 1988 from the University of Paris Sud Orsay. Before joining ENS and Inria, Jean Ponce held positions at MIT, Stanford, and the University of Illinois at Urbana-Champaign, where he was a Full Professor until 2005. His research spans Computer Vision, Machine Learning, and Robotics. He is the author of "Computer Vision: A Modern Approach", a textbook translated in Chinese, Japanese, and Russian, and is (slowly) writing a new textbook, "Geometric Foundations of Computer Vision".

Jean Ponce is the Sr. Editor-in-Chief of the International Journal of Computer Vision and has served on the editorial boards of Computer Vision and Image Understanding, Foundations and Trends in Computer Graphics and Vision, the Siam Journal on Imaging Sciences, and the IEEE Transactions on Robotics and Automation. He will be General Chair for the International Conference on Computer Vision in 2023, and has served as both Program Chair and General Chair for the IEEE Conference on Computer Vision and Pattern Recognition, and General Chair for the European Conference on Computer Vision.

Jean Ponce is an IEEE Fellow and a former Sr. Member of the Institut Universitaire de France. He is the recipient of two US patents, an ERC Advanced Grant, the 2016 and 2020 IEEE CVPR Longuet-Higgins Prizes, and the 2019 ICML Test-of-Time Award.
